

THE ARIZONA REPUBLICAN.

ISSUED EVERY DAY IN THE YEAR
BY
THE REPUBLICAN PUBLISHING COMPANY.

Entered at the postoffice at Phoenix, Arizona, as second class matter of the second class.

THE REPUBLICAN has its own special wire connecting its office direct with San Francisco and Chicago, and through these cities with all the great news centers of the world. Besides the Associated Press report it receives more special dispatches every day than any paper west of St. Louis, outside of San Francisco.

REGISTER.

CHEYNEY and Statehood.

Down with ring rule politics.

We wait for the "statistics."

What has Marcus Aurelius done?

PRIEST and Kirkland and Reform.

REMEMBER that but a few days remain in which to register.

ARGUMENT should be answered with argument, not with personal abuse.

SAN FRANCISCO DEMOCRATS have nominated Frank McCoppin for Mayor. He was Mayor in 1888.

SINGULAR, isn't it, that none of the flat-footed, plainly-stated accusations made by THE REPUBLICAN against the bootleggers have been answered?

SEVERE weather has already set in on the line of the Central Pacific Railroad and snow blockades will soon turn the traffic to the Southern Pacific.

If the Democratic Moses has been successful in replacing Highland Canal bonds, he will not be anxious to return the people's money which he helped "Little Steve" spend.

THE managers of the Democratic "Headquarters" should get one of THE REPUBLICAN's premium dictionaries in order to insure correctness in the spelling of their sign and posters.

EVEN Frank Cox, and he assuredly is no angel, warned the boodling Board that their acts would yet bring them into trouble and washed his hands of responsibility in a number of important measures.

BISHOP ZULICK, the Democratic Moses, intended to return via Salt Lake and bring orders for the ewe lambs of his flock, but President Woodruff's revelation was a paralyser, so he thought best to make a slight detour via New Orleans.

Is speaking of the Southern Pacific Railroad, President C. P. Huntington says that he contemplates no changes. He will not make any unless he finds persons drawing money from the road and returning no equivalent therefor. He is determined to run the road on business principles and to keep it out of politics.

GEORGE F. MEIK has been nominated by the Republicans of Cochise County as a candidate for the Territorial Assembly. Mr. Meik is a man of high ability, possessed of much local patriotism and boundedly endowed with energy. He is one of the publishers of that sterling Republican paper, the Tombstone Epitaph, and has ever been an earnest laborer for people and for party. The voters of Cochise County owe this testimonial of appreciation to Mr. Meik and there can be but little doubt that the debt will be paid.

DARK TREACHERY.

Marcus Aurelius Smith is coming to the Salt River Valley to gain possession of the savior of the people's homes. "Shades of the Sazerac Lying Club," will he never let go? He fooled the people into giving him a large majority here two years ago and he proposes to try and play the same game over again, but he will find to his cost that the people are not suckers as he assumes them to be.

It is a well-known fact that he originally favored the objectionable McCreary bill, and that he did not withdraw his support of the bill until he was compelled to do so by protests from the settlers of the Salt River Valley. Then, after doing what he was forced to do by the people, by axing the exclusion of Arizona from the provisions of the bill, he had the inevitable gall to come to Arizona and pose as a Messiah who had saved the settlers' homes, and he claimed their suffrage on that ground, and they, believing, prostrated themselves before him. It is doubtful if a case of more extreme and successful assurance was ever known before. Any prominent citizen of the Territory could have had Arizona excluded from the provisions of the bill as well as Smith. In fact, there never has been any danger of a Land Court being established with jurisdiction over Arizona except the danger created by Smith himself.

Evidence will be furnished settlers during the campaign that Marcus A. Smith has been working diligently for the passage of a land court bill, with what he calls a saving amendment in it. The people of Arizona desire no land court with jurisdiction over this Territory, and Smith knows it; yet he has been working hard for the very thing the people do not want, and just exactly what Keavis does want, claiming that an amendment (which really amounts to nothing) will save to the people their homes. But even with the help of the great (?) Smith the bill has failed. There never has been any real danger of its passage against intelligent opposition, as will be seen by the following clipping from the Tucson Star of recent date:

In conversation with a gentleman concerning Arizona grants, Senator Edmunds, the best lawyer and leading statesman in Congress, said that the land grant titles of Arizona were non-sensical, but if the people or holders of grant titles were not convinced of this fact, the courts of the Territory were open to litigants. As far as Arizona was concerned she would not be included in the provisions of the bill now before the Senate, looking toward the settlement of doubtful grant titles. "Any lawyer," said he, "who has a grain of sense, knows that the courts are the only places to settle any disputes that may arise."

Marcus, you must dig some chestnuts with meat in them, if you expect the people to bite.

THE MORMON CONFESSION.

President Woodruff says, "Obey the law." George Q. Cannon says, "the law is constitutional, the Supreme Court of the United States having so decided it." President Woodruff issues orders to his people in the following words: "I forbid in future any marriage in violation of the laws of the land." And the congregation, numbering 10,000 people, including Apostles, Bishops and the leading Elders of the church, by a unanimous vote, recognized the authority of the President in issuing the manifesto and accepted it as authoritative and binding.

George Q. Cannon publicly announced his endorsement of the manifesto and his recognition of the supremacy of the laws that had been declared constitutional by the Supreme Court of the United States. The conference also re-adopted the original articles of faith, among which is this: "We believe in being subject to Kings, Presidents, Rulers and Magistrates in obeying, honoring and sustaining the law."

While the President is silent upon the subject of wrongs permitted, authorized and committed in the past, and he is careful not to order his people to put away all wives but one, yet he commands good behavior for the future. It is to be feared that the uncharitable will be inclined to say that the President's manifesto amounts to simply this: "As we are now compelled by law to behave ourselves and live upright lives it is hereby ordered that violations of law cease."

But if the people throughout the country are charitable and take the Mormons at their word, and believe in their sincerity, where does the Democratic howl of intolerance come in? Where is the persecution in required obedience to law, which the highest intelligence of the country and the world have promulgated? Where now is the objection to the test oath (and that is all the Republicans have asked for)? Echo answers where? The result of all this will probably be that history will repeat itself and before very long the Democratic party will claim the credit for having put a stop to polygamy, just the same as they claim the credit of having put down the rebellion, after their national platform of 1864 pronounced the war a failure.

The party of obstruction is hereby respectfully notified that the people understand both cases clearly.

Dr. HUGHES states that he is decidedly in favor of granting to every sick man a comfortable bed at the county's expense. What a blessing an epidemic would be to him, seeing that he makes about 60 cents a day for each "patient" at the County Hospital. The per diem expense for each is, of course, less, as the same man attends to twenty who would be needed for one, but the fact remains that the County Hospital of Maricopa County is conducted at an entirely unnecessary expense and that the extra money flows into the plethoric pockets of this chief apostle of ring rule.

How the two candidates for the Council are viewed in Yavapai county can be seen in the following extract from the Prescott Journal-Miner:
Ex-Governor R. C. Powers and Ex-Governor C. Meyer Zulick, candidates for the Council from Maricopa county, were both formerly residents of this county. If the people of this county were permitted to vote for them at the coming election, we feel safe in saying that Powers would receive 95 per cent of the total vote.

Is drawn-out sentences, with vindictive argument, the ring seeks to show that the County Hospital is a model institution and is most economically managed. The only point made is that the average per diem expenditure for each inmate is comparatively low, as it indeed should be when there is such a crowd. The year 1890 is omitted, however, in the report and we take pleasure in adding some data to complete the evidence of "economy." We saw, the other day, filed in the office of the Board of Supervisors, a document bearing on the back the autograph of H. A. Hughes to the effect that the items contained were correct and legal charges upon the county. It was a report of the County Physician, embracing a detailed statement of expenses and patients cared for at the County hospital. It was in itself a demand upon Maricopa County for a sum but little less than \$1800, and this for only one quarter, or at the rate of \$7200 a year! And this is the boasted economy! It seems as though the ring and its physician were growing bolder in their tapping of the County's life blood, for the last drain upon the treasury for the three months up to July 1 was only \$1300. What hindrance is there but that the next claim presented and allowed may be in the sum of \$2000 or even more? Just so long as the present Board controls the County finances, just so long will this "legalized" peculation continue. These things are what are considered legitimate "spoils of office" and for these are the ringsters trying their utmost to win in the approaching campaign.

WHAT about Peter R. Brady, George H. Stevens et al? Is it possible that the Secretary of the Tucson Club and his friend "Fairfax" (the brainiest man in Arizona) have been reading the law? Can it be possible that "the brainiest" man has at last found wit enough to discover that the Treasurer of the Prison Board is not required by law to give a bond to the Territory as Treasurer, "to be approved by the Governor, etc?" Has it at last dawned upon the befogged intellects of these "brainiest" men that Geo. H. Stevens' associate Commissioners and their bondsmen are liable with him for the shortage, and that they are responsible for it? Stir up the rotten record, "brainiest men," and the more you stir it the more it will offend the nostrils of the honest taxpayers of Arizona. Elect Mr. Brady to the Legislature and by so doing conspire to defraud the Territory by the passage of a bill to relieve Mr. Brady of his liability. It may also be well to elect Mr. Zulick, of New Jersey, who vetoed the bill to investigate prison affairs, and therefore connived at the escape of Mr. Stevens, with the people's money. Brady and Zulick, and others of their ilk in the Sixteenth Legislature of Arizona—think of it, taxpayers!

Dr. HUGHES, in a somewhat unique communication to the Gazette, admits that he considers Frank Baxter as ungodly and objectionable. But not satisfied with this foolish entrance into print the ringmaster reaches down into the pit of oblivion and hooks up a number of ancient issues that have no force in this stage of the world. Keep cool, Doctor; there is no necessity for assailing the National Republican party in return for a personal thrust that happened to hit you and the rest of the ring in your weak places.

Dr. TITUS is warm under the collar and denies that he and his family drew as much as \$4000 per annum from the Insane Asylum funds and also denies the necessity of having complete record books at the Asylum. That's where authorities differ. It is nothing to go wild about, anyhow. The Doctor should know that such a state of mind is harmful to the digestion. He should curb his temper and abate his spleen against the black-hearted Republicans or the excitement may carry him to an untimely grave.

The Louisiana Lottery is not knocked out by the law which forbids it the use of the mails. It can, if it obtains a charter, still continue to do business through the medium of the express companies and by advertising in papers and circulars not intended for distribution through the mails. There is no doubt though, that its income will be much decreased by reason of the order.

The Spanish Americans of Pima county have perfected a strong organization and in a series of resolutions that bear a sting in every line condemn the Democratic candidates and rest their allegiance in the Republican party. They are but joining the great procession that will in November sweep with Cheyney and Nichols to victory.

ROBERT HORNBECK has assumed charge of the editorial work of the Yuma Times and will continue it, as heretofore, a staunch Republican sheet and an industrious exponent of the capabilities of its section. If this be Bob Hornbeck, erstwhile of Riverside and San Diego, the proprietors of the Times are indeed fortunate.

COMMISSIONER MORGAN'S visit to this portion of Arizona will be productive of much good. The civilization of the Indian is a work demanding, to insure success, peculiar conditions and before his departure General Morgan will no doubt fully acknowledge this valley's peculiar fitness for the proposed industrial school.

THE REPUBLICAN'S circulation is so rapidly increasing that the services of two additional mailing clerks are now indispensable in order to catch the mails. The paper's progress has been phenomenal and it is now a safe wager that its circulation is fully three, if not four, times that of any other daily in the Territory.

To show how political association sometimes leads up to depravity, it might be instanced that the Democratic paper considers a canal scheme engineered by the redoubtable Zulick as something gilt-edged, while terming the same sort of enterprise, under charge of a Republican, as a "swindle."
